

# HANNAH WILBERT

## *Web Developer and Designer*

**Location:** Huntington Beach, CA 92646

**Email:** [hannahcwilbert@gmail.com](mailto:hannahcwilbert@gmail.com)

**Phone:** +1 817 821 8848

**Portfolio:** [hannahwilbert.github.io/dev\\_portfolio/](https://hannahwilbert.github.io/dev_portfolio/)

## **SUMMARY**

5+ years of experience as a Creative and driven web developer with a lifelong passion for design and a strong background in computer science. Proficient in coding languages necessary for creating aesthetic, custom websites with responsive and user-friendly interfaces. Quick learner with a positive attitude, excellent teamwork skills, and a dedication to delivering exceptional projects.

## **SKILLS**

- HTML, CSS/SASS/SCSS
- JavaScript/JQuery, React, PHP
- Prototyping, Hi-Fi Wireframes, Style Guides, and Flow Charts using Miro, Illustrator, Figma, and more.
- Adobe Illustrator and Photoshop Multimedia Design.
- Wordpress Custom Theme Development
- Wordpress, Wix, Squarespace, Square, Webflow, Web360 *and more*
- Shopify, Square, WooCommerce, Wix Stores and more ecommerce platforms
- Bootstrap, Elementor/Divi, Godaddy, Oxygen
- Google Analytics, SEO Optimization
- Git, GitHub
- Site Migrations and Launches

## **EXPERIENCE**

### **2023**

Contract Web Developer and Designer | Braven Agency

- Successfully managed and balanced multiple web design projects simultaneously, ensuring efficient time management and prioritization.
- Consistently met project deadlines and delivered high-quality work, exceeding client expectations.
- Actively engaged with clients to understand their requirements, providing regular updates and seeking feedback to ensure client satisfaction.

- Utilized a diverse range of technologies, including HTML, CSS, JavaScript, jQuery, Bootstrap, WordPress, Wix, Webflow, Git, and more, to create visually appealing and user-friendly websites.
- Demonstrated strong organizational skills, maintaining clear communication with team members and clients throughout the project lifecycle.
- Adhered to project timelines and milestones, demonstrating a commitment to meeting deadlines and delivering projects on time.
- Developed effective strategies for project planning, including creating detailed project plans, allocating resources, and assigning tasks to team members.
- Proactively identified and resolved issues and challenges that arose during the design process, ensuring smooth project execution.
- Consistently maintained a high level of attention to detail, producing pixel-perfect designs and implementing rigorous quality control measures.
- Actively sought opportunities to expand technical knowledge and stay up-to-date with the latest web design trends and technologies, continually enhancing skills and capabilities.

## **2022- 2023**

### **Contract Web Developer and Designer | Designity**

- Proficiently utilized a wide range of technologies to deliver exceptional web design solutions.
- Developed custom HTML emails and produced high-quality wireframes and prototypes using industry-standard tools such as Illustrator and Figma.
- Adapted swiftly to new tools and technologies based on unique client requirements, ensuring seamless project execution.
- Built visually appealing and functional web layouts using platforms like Webflow and Wordpress, employing best practices for optimal user experience.
- Demonstrated expertise in creating comprehensive flow maps, prototypes, and mockups to guide the design process and align with client expectations.
- Skillfully designed graphics for print materials using advanced tools like Illustrator and Photoshop, maintaining a meticulous attention to detail.
- Developed captivating and interactive web animations using SVGs, HTML, CSS, and JavaScript, enhancing user engagement and visual appeal.
- Ensured the seamless responsiveness and mobile-friendliness of web layouts across diverse platforms, guaranteeing a consistent user experience.
- Integrated custom code, applications, graphics, audio, and video clips into client websites, elevating their functionality and aesthetic appeal.
- Created innovative tools and features to enhance the overall user experience on websites, optimizing usability and satisfaction.
- Successfully managed and prioritized multiple projects concurrently, consistently meeting all deadlines while upholding high-quality standards.

## **2022**

### **Front End Web Developer and Designer | Dedicated Designs**

- Demonstrated proficiency in a wide range of development technologies, leveraging these technologies to create exceptional web experiences.

- Transformed dysfunctional and broken websites into visually stunning, fully-responsive, and user-friendly platforms, elevating the overall user experience.
- Spearheaded the end-to-end development of the DQM.Connect website, successfully bringing the project to fruition.
- Conducted seamless web migrations, ensuring smooth transitions and preserving website functionality.
- Thrived in collaborative team environments, fostering effective communication and synergy to achieve project goals.
- Crafted and implemented custom Wordpress themes, tailoring websites to clients' specific branding and design requirements.
- Designed and executed captivating CSS graphics and animations, enhancing the visual appeal and interactivity of web interfaces.
- Translated complex designs from PSD files into meticulously hand-coded HTML/CSS, ensuring pixel-perfect precision.
- Utilized HTML, CSS, JavaScript, and PHP to write clean and efficient website code, enabling robust functionality and interactivity.
- Created comprehensive flow maps, prototypes, and mockups, guiding the design process and aligning with clients' visions.
- Seamlessly integrated custom code, applications, graphics, audio, and video clips into client websites, enriching their overall functionality and engagement.
- Ensured cross-platform accessibility, guaranteeing that websites were optimized for diverse devices and screen sizes.
- Provided ongoing maintenance and support for client websites, ensuring their continued optimal performance and addressing any emerging issues.

## **2019 - 2022**

### **Front End Web Developer and Designer | Deviate Agency**

- Utilized HTML, CSS, Wordpress, WPEngine, Bootstrap, jQuery, JavaScript, Three.js, Yellow Pencil, Divi, Elementor, and Git.
- Collaborated closely with clients to fulfill their requirements.
- Developed, designed, and maintained multiple Wordpress websites and Shopify/Ecommerce sites.
- Implemented on-site SEO strategies to increase website traffic.
- Successfully managed up to 10 projects simultaneously, consistently delivering quality work on time.
- Led a team of back-end developers, creating detailed project plans and assigning roles.
- Created custom Wordpress websites from inception to launch.
- Designed and developed custom CSS graphics and animations.
- Converted PSDs into hand-coded HTML/CSS.
- Utilized HTML, CSS, JavaScript, and PHP for website coding.
- Ensured cross-browser compatibility and conducted unit testing.
- Created flow maps, prototypes, and mockups.

## **2018 - Present**

### **Front End Web Developer and Designer | Self-Employed**

- Fostered strong client relationships through close collaboration, effectively understanding and fulfilling their requirements.

- Developed, designed, and maintained multiple Wordpress websites and Shopify/Ecommerce sites, ensuring seamless functionality and an exceptional user experience.
- Implemented effective on-site SEO strategies, resulting in increased website traffic and improved search engine rankings.
- Successfully managed and prioritized up to 10 projects simultaneously, consistently meeting deadlines and delivering high-quality work.
- Led a team of back-end developers, providing clear project plans, assigning roles, and overseeing successful project execution.
- Orchestrated the entire lifecycle of custom Wordpress websites, from conceptualization to launch, ensuring the delivery of polished and functional web solutions.
- Designed and developed captivating CSS graphics and animations, enhancing the visual appeal and interactivity of websites.
- Expertly converted PSD designs into meticulously hand-coded HTML/CSS, ensuring pixel-perfect accuracy and seamless integration.
- Utilized HTML, CSS, JavaScript, and PHP to write clean and efficient code, ensuring optimal website performance and functionality.
- Ensured cross-browser compatibility and conducted thorough unit testing, guaranteeing a consistent and seamless experience across different web browsers.
- Created comprehensive flow maps, prototypes, and mockups, guiding the design process and aligning with clients' visions for their websites.

## **EDUCATION**

### **B.S. in COMPUTER SCIENCE**

**University of California-Irvine - Irvine, CA**

This comprehensive educational foundation has been instrumental in shaping my career as a web developer. Through my coursework, I gained a deep understanding of fundamental concepts and principles in computer science, which provided a solid technical background for my web development endeavors. The program equipped me with essential skills in programming languages, algorithms, data structures, and software engineering practices. The knowledge and problem-solving mindset acquired during my studies at UCI have been invaluable in my ability to tackle complex web development challenges and deliver innovative solutions.

### **FULL STACK CODING CERTIFICATION | 2019**

**University of California, Irvine**

- Developed fundamental web development skills, including HTML, Bootstrap, CSS, and JavaScript.
- Created client-side applications using third-party APIs.
- Worked with servers, databases, and back-end technologies such as MySQL and Node.js.
- Engineered full-stack applications.
- Expanded skills in NoSQL databases, progressive web applications, and React.
- Built MERN stack single-page applications.
- Developed a multiplayer game from scratch.

### **UX/UI DESIGN CERTIFICATION | 2021**

## University of California, Irvine

- Acquired technical design skills for digital art using industry-standard graphic design solutions.
- Conducted user research to understand the user journey and inform design decisions.
- Mastered skills, technologies, and frameworks for creating immersive applications.
- Created live web applications as functional prototypes.
- Explored front-end development, designing responsive applications.

## **AWARDS**

- "HTML/CSS" Skill Badge - Awarded from UCI FullStack Coding Bootcamp (2019)
- "Javascript & jQuery" Skill Badge - Awarded from UCI FullStack Coding Bootcamp (2019)
- "Node.js & Express" Skill Badge - Awarded from UCI FullStack Coding Bootcamp (2019)
- "React.js" Skill Badge - Awarded from UCI FullStack Coding Bootcamp (2019)
- "SQL & NoSQL Databases" Skill Badge - Awarded from UCI FullStack Coding Bootcamp (2019)

## **ASSESSMENTS**

- Software developer fit — Proficient (March 2022)
- Graphic design — Proficient (March 2022)
- Attention to detail — Highly Proficient (March 2022)

---

## **Notes from my previous employer and my professor:**

"Dear Prospective Employer,

*Hannah Wilbert was an amazing designer for us who showed that she had great creativity and insight when it came to designing websites. Moreover, she has an incredibly bright personality where she is always cheerful and helpful. She has a "can do" attitude. I wish we could have kept her but due to circumstances out of her control and ours I had to lay her off. Client work slowed down and we sadly had to make cuts to our team. While I worked with her for only one month she showed great promise and demonstrated a true understanding of web design.*

*I cannot recommend Hannah enough and I wish you the best of luck in your hiring efforts.*

*Cordially,  
Joshua Hanosh  
CEO - Dedicated Designs"*

---

*"It brings me great pleasure to write this letter to you to recommend Hannah Wilbert for the position of web developer/designer. Hannah has been a top performing member of the UCI Full Stack Coding*

*Bootcamp and has successfully managed to masterfully complete every project and has blown us all away with not only her technical skills, but she has always gone above and beyond to create stunning front-end design for each one. Hannah has been a part of quite a few collaborative team projects and plays a pivotal role in guiding them to success.*

*Hannah has grasped most of the modern technologies and quick learning capability ensures her stays updated with the recent advancements. She is very passionate about learning and has always been a very quick problem solver.*

*From my experience of teaching Hannah Wilbert first hand, I can vouch that she is ready to grow into one of the top Web Designers in the industry.*

*I believe having an employee of Hannah's caliber and creativity will add great value to any company.  
Sammy Roberts, UCI"*
