WEB DEVELOPER

I am a creative and driven web developer who has taken my lifelong passion for design to the next level - mastering the coding languages necessary to create not only aesthetic and custom websites, but responsive and user-friendly interfaces as well.
I have a very strong passion for web development, which makes me a very quick learner and a bit of a perfectionist. I always keep and positive attitude, I get along very well with others, and I am very driven and willing to work overtime to ensure that every project is an exceptional one.

EDUCATION

2016-2020 **SOFTWARE ENGINEERING, B.S.**
University of California, Irvine

Developed a strong foundation in software engineering and became a productive team member in a variety of application domains including Web and mobile applications.

2020-2021 **UX/UI DESIGN BOOTCAMP**
University of California, Irvine

Expanded the ability to create digital art by providing key technical design skills, all while utilizing industry standard graphic design solutions.

Discovered my passion in front-end development and learned to design and build responsive applications.

2021-2022 **CERTIFICATE OF ACHIEVEMENT**
CodeAcademy

Provided further practice and expansion on an existing foundation of full stack coding

EXPERIENCE

2019-2021 **DEVIATE AGENCY**
Web Designer/Developer

As the sole front-end developer and designer, I worked closely with a team of back-end developers to create the official website for the business as well as an array of websites for our clients.

Converted PSD to HTML

Incorporated the vision and goals requested from our clients to create custom designs, giving each website an original and unique personality.

2018-2022 **CONTRACT WEB DEVELOPER**

Designed, developed, optimized, and maintained pixel-perfect, cross-browser friendly websites and applications, either from scratch or through Wordpress, that met my client's needs and goals and matched their branding aesthetic.

Took basic, dysfunctional, or broken websites and transformed them into visually appealing, user-friendly and functional user-experiences.

2018-2022 **CONTRACT GRAPHIC DESIGNER**

Communicated with clients about their brand goals.

Created custom graphics and logos for growing businesses.

Designed various book covers using Adobe Illustrator.

2011-2022 **PROFESSIONAL MUSICIAN**

Designed and launched personal Wordpress Website.

Designed merchandise such as cards, CD's, T-Shirts, Posters, ETC.

Learned new songs and chord progressions quickly and customized my setlists to each venue.

Managed my own gigs, stayed punctual, friendly, and professional.
